

CUSTOM BSL LEVEL-2 SAFETY HOOD (Above)

Hello and Thank You for considering Berlin Food and Lab Equipment Company as your custom life science equipment supplier.

We are a customer centered company leading the dynamic equipment needs of the biotech, pharmaceutical & medical industries today. Serving the needs of companies such as Genentech, Gilead, Amgen, & BioMarin. As well as hundreds of other companies nationwide.

Our unmet equipment group is paramount in assisting these industry leading companies in developing treatments for cancers & serious life-threatening illnesses. This is a **PASSION** for us here at Berlin. From custom robotic enclosures, transfer carts, lab & gowning storage cabinets to almost any customized clean room equipment your facility may need.

INNOVATION + PASSION

We have a highly flexible in-house & locally sourced partner network of dynamic fabrication and production equipment available. Through partner collaboration were able to produce turn-key **INNOVATIVE** equipment that is plug-n-play ready for use in most industry settings. Constant **INNOVATION** is also paramount to our success in today's rapidly changing world. Whether your idea is 100% developed or just sketched out, our equipment group of experts is ready to work with you to realize the full potential of your product needs.
